The corresponding **Criteria ID** for datasets available within the Self-Assessment Tool is provided in these tables to assist road managers to interpret the results provided when they complete a Strategic Merit Test via the online Self-Assessment Tool. Please note the Self-Assessment Tool does not have corresponding data to cover all criteria set out for each road category. Criteria without a corresponding Criteria ID should be considered by the road manager alongside the results provided in the Self-Assessment Tool.

## Criteria for Nationally Significant State Roads

| Nationally Significant State Roads                                                                                                                                                                                     | Criteria ID |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>Must meet at least 2 of these criteria</b>                                                                                                                                                                          |             |
| Primary route for moving people and goods:                                                                                                                                                                             |             |
| <ul style="list-style-type: none"> <li>Comprises the Australian Government National Land Transport Network, which is the designated priority national road freight route between Australian capital cities.</li> </ul> | S-01        |

| 3. Road does not closely parallel an existing State Road unless it has similar traffic volumes.                                                                                                        |                |                                                                                                                                                                                                                                                   |                |

## Criteria for Local Roads

### Local Roads

Local Roads primarily have an access function typically catering for first and last mile journeys.

Generally, if a road does not meet the State Road or Regional Road criteria it is considered a Local Road.
